

致家长的一封信 · A Letter to Parents

《数字化学习》DIGITAL LEARNING · 两学期公开课程 A TWO-SEMESTER PUBLIC COURSE

尊敬的家长：

一、我们请您做三件事

二、这是一门什么课

三、这门课怎么运行

四、孩子的一周

五、作品怎么评，放在哪里

六、隐私与安全

七、孩子卡住时，走这三步

八、需要您知情的三件事

九、有问题找谁

十、最后

English version · 英文版

Dear Parents,

1. Three things we ask of you

2. What this course is

3. How the course runs

4. Your child's week

5. How work is assessed, and where it lives

6. Privacy and safety

7. When your child is stuck

8. Three things you should know about

9. Whom to contact

10. In closing

关于《数字化学习》课程

日期 Date: 【请填写 Fill in: 落款日期 date of this letter】

尊敬的家长：

我是您孩子在《数字化学习》课程中的导师。这封信告诉您：这门课怎么运行、孩子每周做什么、我们怎样保护他，以及您能怎样帮忙。

这封信不需要您回复。读完约五分钟。如果只读一节，请读第一节。

一、我们请您做三件事

1. 每周守住两个约一小时的时段。写进家里的日历（例如周三晚上、周六上午），那两小时不派家务、不安排走亲访友。异步课程最容易被“随时都可以做”吃掉。
2. 每周聊五分钟，问过程，不问分数。孩子每周会写三行日志：学到了什么 · 哪里卡住了 · 下周怎么办。就这三行聊。请不要问“做完了吗”“得了几分”。
3. 不替孩子做作业，也不替孩子写邮件。陪着他、听他讲、当他的第一位读者，但让作品和邮件出自他自己的手。

加分项：在注册账号和隐私设置这两件事上做孩子的搭档——注册前看一眼是哪个平台；网站发布后陪他检查一遍有没有真实姓名、正脸照片、学校全名。

二、这是一门什么课

这门课教的不是某一款软件，而是怎样学习——尤其是怎样在线上、独自一人的情况下把学习做成。

- 第一学期：站稳脚跟。写邮件、截图录屏、用翻译工具读英文、管好账号密码、检索并记录来源、搭好自己的数字工作台；然后是“什么是学习”“什么是数字化学习”“怎样让学习真正发生”。
- 第二学期：判断、创造、自主。判断网上信息可不可信、管理数字足迹与数字健康、和家人商定家庭媒体公约、为下一届同学做一节微课，最后独立完成一个毕业项目。

三、这门课怎么运行

学制	两个学期，每学期 16 个教学周。
形式	异步在线自学——没有固定上课时间，没有直播。
周次	只说“第几周”，不绑定日期；遇到法定节假日顺延，并设有缓冲周，不开新内容。
每周时长	必做不超过 120 分钟，连外部课程也算在内；“选做”不计入。
节奏	每周一开放当周页面。建议：周三前看完材料，周六前完成任务，周日前发布并写日志。
迟交	没有迟交处罚。落后了就先做当周的，再用缓冲周补。
个体学习	没有小组作业，没有讨论区，没有互相回帖。
导师	两位导师，各负责约 30 名学生，我是其中之一。我每周查看进度、按量规评分、邮件反馈；哪一周没交，我当周就联系；也可预约一对一视频答疑。

在线课程并不比线下轻松：它省掉通勤，换来的是对自我管理的更高要求。所以第一节的第一条最重要。

四、孩子的一周

每个教学周只有一张网页，这张页面本身就是这一周的学习。它固定包含：本周目标 · 预计用时 · 材料（文字加一段短视频） · 跟着做的小练习 · 本周任务与量规 · 可勾选的自评清单 · 不计分的自测题 · 三行反思日志 · 选做的拓展 · 建议节奏 · 常见问题。

视频每段不超过 5 分钟、配中英字幕，放在各地都能直接打开的平台上，每段视频都另附一份完整文字版——看不了视频也能学完。

第 3 周，孩子会建一个属于自己的个人网站，三个页面：关于我 · 学习日志 · 作品集。从那以后这个网站就是他的作业本。第二学期再加“项目”和“我的一年”两页。

第一学期里，孩子还会从一份课程菜单中挑两门公开免费的在线课程真正去学：一门“主修”学完，一门“探索”只试两节。主修课安排在学期后段，每周一小时，这一小时也算在那 120 分钟之内。孩子在注册任何一个外部课程平台之前，我们要求他先告诉您。

五、作品怎么评，放在哪里

每一件计分的作品都附一张量规。量规的每一行就是这个单元的学习目标，每一行分四级：

等级	含义
达标	作品清楚地做到了这条目标。
发展中	方向对了，还差一点火候。
尚未达标	这条目标还没有做到。
证据不足	不是做得不好，而是作品里看不出来——通常漏了一步，补上就行。

作品发布在孩子自己的网站上，把那一页的链接登记给我；我按量规评分，一周内邮件反馈。每学期满分 100 分：≥60 合格并获学期证书，≥85 标注“优秀”，两个学期都合格的孩子另获年度证书。

课程网页上还有几次不计分的“学习状态自测”，帮孩子看清自己的变化。它不进成绩，不影响证书，结果只显示在孩子自己的浏览器里，我们不收集。（若学校另行开展需要家长同意的问卷，会以单独的告知信与回执征求您的意见，与课程网页无关。）

六、隐私与安全

- 化名，不用真名。孩子在网站上使用英文名或化名。
- 不放正脸照片，不写学校全名，也不发布任何他人的个人信息。
- 网站设置为“不被搜索引擎收录”。建站那一周我们会一步一步教孩子关掉“允许搜索引擎收录”的开关：网站能通过链接打开，但搜不到。
- 要不要公开发布，是第二学年末才出现的一个选项，并且必须有家长的书面同意。在那之前不存在“公开”这个动作。
- 所有工具都免费，注册只需一个邮箱——不要手机号，不需要 VPN。这是选工具的硬规则。
- AI 的使用有明确规范。第一学期不强制使用任何 AI 工具。课程规定：不得把 AI 生成的内容当作自己的作业提交；事实性内容必须另找可靠来源核实；任何时候都不得向 AI 工具输入自己或他人的个人信息。
- 页面上的互动（打勾、自测、进度条）不需要任何账号，进度只保存在孩子自己的浏览器里，我们不收集。

如果网站出了问题、内容丢失，或孩子在网上遇到任何让他不舒服的事，请立刻给我发邮件。这类事情从来没有“小题大做”。

七、孩子卡住时，走这三步

1. 让他把问题说清楚：一句话说明“我想做什么、我做了什么、结果怎样”，配一张截图。
2. 让他自己给我发邮件。写邮件本身就是第一学期的正式内容。我在 24 – 48 小时内回复（节假日除外）。
3. 等回复的时候，让他先做下一件事。卡住的那一件放着，不是失败，是排队。

只有一种情况请您直接出手：涉及安全、隐私、金钱，或让孩子感到不安的事。请立刻联系我，不必等孩子自己开口。如果孩子出现明显反常——突然沉默、忽然拒绝把手机放在客厅——请先温和地问，然后尽快联系我。

八、需要您知情的三件事

1. 孩子会用邮箱注册账号。第 3 周注册一个建站平台账号，第一学期还会注册 1 – 2 个外部课程平台。全部免费，只需邮箱，不需要手机号。注册前孩子会告诉您——请花两分钟看一眼是哪个平台。
2. 部分 AI 工具的年龄条款。有些工具要求 14 岁以下的使用者获得监护人同意。第一学期不强制使用任何 AI 工具；家中不便使用的孩子可以申请在校完成相关任务。
3. 网站的隐私设置与年末的公开选项。网站设置为不被搜索引擎收录、使用化名、不放正脸照片和学校全名。第二学期末如果孩子希望把作品集公开发布，需要您的书面同意——到时会另有一份说明和同意表送到您手上。【请填写 Fill in: 家长知情同意书是否已有、链接或送达方式 whether a parent consent form exists, and its link or delivery method】

九、有问题找谁

找谁	什么事	怎么联系
我 · 您孩子的导师	每周进度、作品与反馈；技术故障；孩子落后了；安全、隐私与便利安排。	【请填写 Fill in: 本信落款导师的姓名与邮箱 the name and email address of the mentor sending this copy】
课程网站	教纲、每周页面、量规、本学日历。	https://yupei2023.github.io/digital-learning/

我承诺 24 – 48 小时内回复邮件（节假日除外）。如果孩子在读写、视听、注意力或其他方面需要便利安排（例如延长时限或替代形式），请尽早告诉我——相关信息会被保密。

【请填写 Fill in: 是否举办家长说明会 / 一对一沟通时段，以及形式与预约方式 whether a parent information session or 1:1 slots will be offered, in what form, and how to book】

十、最后

这一年结束的时候，我希望您看到的不只是一个网站和两张证书，而是一个能给自己定目标、能自己开口求助、卡住了会想办法的孩子。

您扮演的角色比您以为的重要，也比您以为的轻松：不是当老师，不是当监工，只是当那个守住时间、认真听讲、并且忍住不替他动手的人。

谢谢您的信任。

顺颂 时祺

您孩子在《数字化学习》课程中的导师

English version · 英文版

About the Digital Learning course

日期 Date: 【请填写 Fill in: 落款日期 date of this letter】

Dear Parents,

I am your child's mentor in Digital Learning. This letter tells you how the course runs, what your child does each week, how we protect them, and how you can help.

This letter needs no reply. It takes about five minutes to read. **If you read only one section, read Section 1.**

1. Three things we ask of you

1. **Protect two roughly one-hour slots each week.** Put them in the family calendar — Wednesday evening and Saturday morning, say — and keep errands and visits out of them. Asynchronous courses are most often eaten by “you can do it anytime”.
2. **Talk for five minutes a week — about the process, not the score.** Each week your child writes three lines: what I learned · where I got stuck · what I'll do next. Talk about those. Please avoid “Are you done?” and “What did you score?”
3. **Do not do their work, and do not write their emails.** Sit with them, listen, be their first reader — but let the work and the email be theirs.

A bonus: be your child's partner on two things — account registration and privacy settings. Glance at the platform before they sign up, and after they publish, check the site together for a real name, a face photo, or a full school name.

2. What this course is

This course does not teach a piece of software. It teaches **how to learn** — especially how to make learning happen online, alone.

- **Semester 1 — getting equipped.** Email, screenshots and screen recording, reading English with translation tools, accounts and passwords, searching and recording sources, a personal digital workspace — then what learning is, what digital learning is, and how to make it happen.
 - **Semester 2 — judging, creating, self-directing.** Weighing online information, digital footprint and wellbeing, a family media agreement, a micro-lesson for next year's students, and an independent capstone project.
-

3. How the course runs

Length	Two semesters, 16 teaching weeks each.
Format	Asynchronous online self-study — no class meetings, no live sessions.
Weeks	Weeks, not dates; work rolls forward past public holidays, and buffer weeks carry no new content.
Weekly time	Required work never exceeds 120 minutes a week , external course included; optional work is outside that budget.
Rhythm	Pages open Monday. Suggested pace: materials by Wednesday, task by Saturday, publish and log by Sunday.
Late work	There are no late penalties. If they fall behind: do the current week first, catch up in a buffer week.
Individual	Every artifact is the child's own: no group work, no forum, no peer replies.
Mentors	Two mentors, each supporting about 30 students; I am one. Every week I check progress, score by rubric, and reply by email; if work is missing I make contact that same week; 1:1 video is available by appointment.

An online course is not the easy option: it saves the commute and asks far more self-management in return. That is why the first item in Section 1 matters most.

4. Your child's week

Each teaching week is **one web page**, and that page *is* the week's learning. It always carries: objectives · time estimate · materials (text plus a short video) · a follow-along exercise · the week's task and rubric · a checkable self-review list · an ungraded self-quiz · the three-line reflection log · optional extras · suggested pace · FAQ.

Videos run under five minutes, carry bilingual captions, and sit on a host that opens directly wherever you are. **Every video has a full text version beside it**, so the week works even if the video does not.

In Week 3 your child builds a personal website with three pages: **About me** · **Learning log** · **Portfolio**. From then on that site is their notebook. Semester 2 adds *Project* and *My year*.

During Semester 1 your child also picks two free public online courses and actually takes them: one *core* course to finish, one *explore* course sampled for two or three lessons. The core course runs one hour a week later in the semester, inside the 120 minutes. **Before registering on any external platform, we ask your child to tell you first.**

5. How work is assessed, and where it lives

Every graded task comes with a rubric. Each row *is* one of that module's objectives, rated at four levels:

Level	What it means
Meets	The work clearly does what the objective asks.
Developing	On the right track, not there yet.
Not yet	The objective has not been met yet.
No evidence	Not “poor work” but “nothing to read” — usually a missing step that can simply be added.

Work is **published on your child’s own website**, and its link registered with me; I score by rubric and reply by email within a week. Each semester is out of 100: **60 or above passes and earns the semester certificate**, **85 or above is marked “with distinction”**, and passing both semesters earns the year certificate.

The course pages also include a few **ungraded “learning self-checks”**. They never enter the grade, never affect the certificate, and display only in your child’s own browser — we collect nothing. (Should the school ever run a questionnaire that needs parental consent, we will ask you separately, with its own information letter and reply slip; it is unrelated to the course pages.)

6. Privacy and safety

- **Pseudonyms, not real names.**
- **No face photos, no full school name**, and no one else’s personal information.
- **The site is set not to be indexed by search engines.** We walk your child through turning search indexing off, step by step: the site opens by link but does not appear in search results.
- **Making the site public is only an option at the very end of Semester 2, and only with written parental consent.** Until then, going public is simply not an action that exists.
- **All tools are free and sign up with an email address only — no phone number, no VPN.** This is a hard rule, not a preference.
- **AI use has explicit rules.** Nothing in Semester 1 requires an AI tool. AI-generated content may never be submitted as one’s own; factual claims must be verified against a reliable source; and **personal information — your child’s or anyone else’s — is never typed into an AI tool.**
- **The interactive parts of each page require no account;** progress stays in your child’s own browser and is not collected by us.

If the site breaks, content is lost, or your child meets anything online that makes them uncomfortable, please email me at once. **On matters like these there is no such thing as overreacting.**

7. When your child is stuck

1. **Have them state the problem** — one sentence covering what they were trying to do, what they did, and what happened, plus a screenshot.
2. **Have them email me themselves** — writing that email is itself part of what Semester 1 teaches. I reply within 24 – 48 hours (holidays excepted).

3. **While waiting, let them move on.** A stuck item set aside is not a failure; it is an item in a queue.

There is one case where you should step in directly: anything involving safety, privacy, money, or something that has upset your child. Contact me at once; do not wait for your child to raise it. If you notice a marked change — a sudden silence, a flat refusal to leave the phone in the living room — ask gently first, then contact me promptly.

8. Three things you should know about

1. **Your child will register accounts with an email address:** a website builder in Week 3, plus one or two external course platforms in Semester 1. All free, email only, no phone number. **They will tell you before registering** — please take two minutes to look at which platform it is.
2. **AI-tool age terms.** Some tools require guardian consent for users under 14. Nothing in Semester 1 requires an AI tool, and any child who cannot use one at home may complete the work on campus.
3. **The site's privacy settings and the year-end public option.** The site is unindexed and pseudonymous by default, with no face photos and no full school name. If at the end of Semester 2 your child wishes to make their portfolio public, **your written consent is required** — a separate note and consent form will reach you then. 【请填写 Fill in: 家长知情同意书是否已有、链接或送达方式 whether a parent consent form exists, and its link or delivery method】

9. Whom to contact

Who	What for	How
Me — your child's mentor	Weekly progress, work and feedback; technical trouble; falling behind; safety, privacy and accommodations.	【请填写 Fill in: 本信落款导师的姓名与邮箱 the name and email address of the mentor sending this copy】
Course site	Syllabus, weekly pages, rubrics, the semester calendar.	https://yupei2023.github.io/digital-learning/

I reply to email **within 24 – 48 hours** (holidays excepted). If your child needs accommodations — extra time, an alternative format, or anything else — please tell me early. What you tell me stays confidential.

【请填写 Fill in: 是否举办家长说明会 / 一对一沟通时段, 以及形式与预约方式 whether a parent information session or 1:1 slots will be offered, in what form, and how to book】

10. In closing

By the end of this year, I hope what you see is not only a website and two certificates, but **a child who can set their own goals, ask for help in their own words, and find a way around what blocks them.**

Your part matters more than you think and asks less of you than you fear: not to be the teacher, not to be the supervisor, only to be the person who protects the time, listens properly, and holds back from taking over.

Thank you for your trust.

With warm regards,

Your child's mentor, Digital Learning 数字化学习
